PROJECTS

NEXUS-X

- The Nexus-X Project is a cutting-edge initiative showcasing a futuristic user menu that highlights the best of my web development projects. Designed to deliver a seamless and visually stunning experience, Nexus-X features a sleek white-themed loading animation, polished containers, and intuitive navigation. The menu serves as a dynamic portfolio, combining advanced UI/UX design with interactive animations to represent innovation and creativity. This project pushes the boundaries of web design, offering users an elegant and technologically advanced platform that embodies the pinnacle of modern web development.
- Live Demo - https://binaryvortex.github.io/Nexus-X-Prime/

Ecommerce Website

- This responsive Ecommerce website, built with HTML, CSS, and JavaScript, features intuitive navigation, dynamic product displays, and interactive elements for a seamless shopping experience.
- Live Demo - https://binaryvortex.github.io/Ecommerce-Website/

SYNERGER Website

- This renewable energy website promotes sustainability with a clean, responsive design. Built using HTML, CSS, and JavaScript, it features intuitive navigation, engaging visuals, and informative content to highlight green energy solutions.
- Live Demo - https://yuthmikagamage.github.io/Website-on-Renewable-Energy-Using-HTML-CSS-JS/

Rithika Welihinda Personal Portfolio

- This portfolio website for Rithika Welihinda, built with HTML, CSS, and JavaScript, features a modern, responsive design to showcase his skills and achievements.
